Have the one you did

And the one or more from the APP... I think its important to show the distance from surface water up close

There are 3 individual maps but they don't show the Allegany River. Just the AOR, the half-mile, and 1 ¼-mile map.

Isnt there a map in the application we can pull?

Yeah I can just give a brief overview of the permit and the timeline, kind of what I said to Dan the other day. Do you think that map that quick map I created would suffice? I'm not sure if we could get the GIS team to create something that quickly.

I think this is all good
Will you be prepared to share the permit information? Maybe a map ready to show if the use teams we can share
Ill step on on the next steps/concerns....

Dan said he didn't need to be... I guess put him as optional

Jim, I'm thinking I should send a meeting invite to Mr. Redeye from the Seneca Nation soon. I put a list together of people that I think need to be invited to the meeting:

Cliff Redeye
Jim Bennett
Kevin Rowsey
Dave Rectenwald
Barb Okorn
Grant Jonathan
Pat Gleason

It seems that ORC didn't want to be involved (from A.J.'s perspective) but I'm not sure how Dan feels about it.

I also wanted to put an agenda together in the meeting invite but it's not going to be very extensive because we don't really know what their concerns are.

Agenda

- Introductions
- Overview of the proposed Injection Project
- Thoughts/Concerns of the Seneca Nation
- Next Steps

Let me know what you're thinking.

Thanks!
